

 stile

Interior design to color your lifestyle.

Carpet is such example.

Various graphics are expressed with our original technology.

Enjoy the sense of scale created from free imaginations.

Here is the new proposal from stile.

**style plus tile [stile]**

81 PRODUCT SPECIFICATION

## Spreading ideas, connecting floor

Color change, up / down scaling,  
and custom order are available.

The one and only carpet tile in the world for  
you made with stile's custom / full order system.

## “stile” Original Design

Comprising six themes,  
the graphic carpet invigorates the floor  
with its sense of design / scale full  
of originality customized with a variety  
of styles such as stores, office,  
commercial facility, cultural facility,  
amusement facility, hotel, etc.

One design is complete by connecting 500 mm  
carpets. The expansion of the space is directed  
by connecting the design.

## Reliable Service, Drawing & Numbering

If you can provide a drawing, etc.,  
we can calculate the required sheets for you.  
You can order only as many as you need.  
Easy construction with carpets numbered  
on the back side along with the construction drawing.

16 sheets / repeat

We take orders with a  
combination of  
**16+8 sheets!!**

# DESIGNERS

## [ Designer's Concept series ]

sumi 墨 The checkered manner which controls the gap between inevitable and coincidence. It was born by imitating it. P08

aja 彩 By establishing a restriction on a behavior in addition to the checkered manner, it was born by focusing on the coincidental beauty. P12

yuu 遊 Enjoy the fun and the skill of essence by simplifying the materials scattering around you. P16

waza 技 Enjoy the resonance of different materials by combining the handwritten material and Japanese washi paper. P20

katachi 象 Enjoying the floating figure which reiterates over the background with texture. P23

### Designer Masato Yamazaki

Born and resides in Kyoto. In 1987, established the textile design office "MY.STUDIO". Continued to exhibit at the textile trade fairs in and out of the country since then. Provides designs to domestic interior manufacturers. Drawing up "Suuki" as the overseas design concept. Provided design to European interior fabrics manufacturer. In 2000, along with the business expansion and the introduction of digital production environment, the organizational name was changed to "Surface design Lab. MY.STUDIO". Since then until this day, by interpreting Surface=Interface, worked on producing graphic, binding, illustration, web design, etc. let alone textile.

## [ Designer's Joint ]

style develops designer works, graphics and art into a carpet.

Let's collaborate and create a graphic carpet  
like we have never seen before!

First Joint : Masato Yamazaki - Surface design Lab. MY.STUDIO -

# CUSTOM ORDER SYSTEM

## [ UP & DOWN Scaling ]

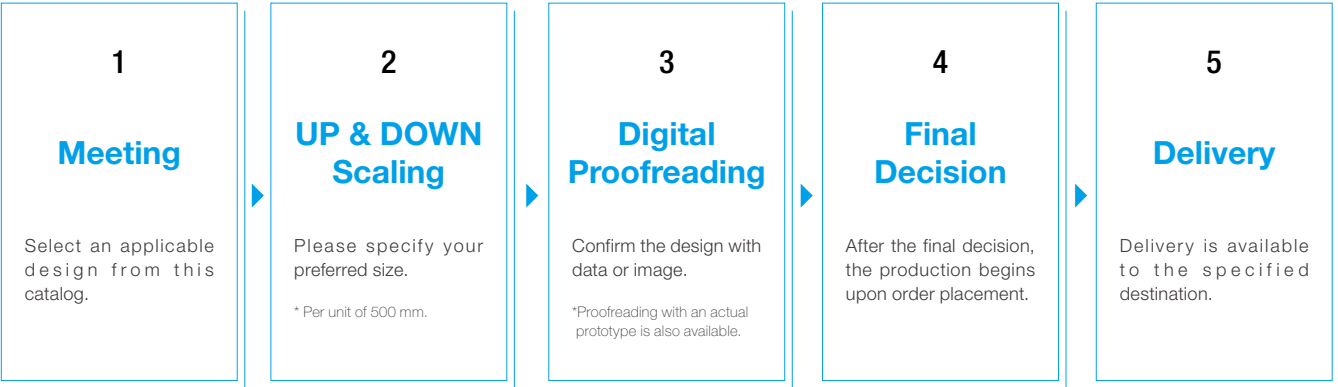

Modifying the carpet design scale is available along with the scene. Especially, upscaling makes the pattern repetition appear less noticeable and directs a bold floor. Enjoy the various sense of scale.

\*Service is available subject to design.

Minimum Size: : 1000mm × 1000mm

## Order Flow

COLOR  
CHANGE

## 【 Color Change 】

Changing the carpet design color is available along with the scene.  
The space is directed by being connected with colors along with the  
concept and color image. Enjoy the variety of color lineup.

\*Service is available subject to design.

\* Please select from our standard/optional colors. Specific colors are available, too.

COLOR  
CHANGE

## Order Flow

1

### Meeting

Select an applicable  
design from this  
catalog.

2

### Color Selection

Please select your  
preferred color from the  
total 46 of our standard/  
optional color offerings.  
(see p.80)

\*Color change to your preferred  
specific color is also available.

3

### Digital Proofreading

Confirm the design with  
data or image.

\*Proofreading with an actual  
prototype is also available.

4

### Final Decision

After the final decision,  
the production begins  
upon order placement.

5

### Delivery

Delivery is available  
to the specified  
destination.

# FULL ORDER SYSTEM

With your preferred design, creating an original carpet tile with the digital textile printing is available. We accept an order to create from the design as well.

## Order Flow

## Color Chart

[ Standard Color ]

[ Optional Color ]

### Specific Color

Upon color specification, please specify the target color such as DIC or pantone.  
\*Due to the nature of the ink, an approximate color matching is performed. Some color tones may not be expressed.

\*Carpet material printing is available from 16 special colors. Available with 100% fill but not with area fill.

\*The picture is a printing image. It may come out differently from the actual finish.

## <Product Specification>

**[ Composition ]** Texture : Nylon 100 %  
Base : Glass fibre + PVC resin  
Pile density : 1 / 10 G × 13ST

**[ Specification ]** Pile Length : 6 mm cut pile  
Overall Thickness : 9 mm  
Size : 500 mm × 500 mm

**[ Packing ]** 16 sheet / case (4㎡) \*maximum

### **[ Construction Method ]**

#### **Installation by adhesion**

(Bonding carpet with poured hot asphalt is set as a standard)

Figure of bonding carpet with poured hot asphalt

### **[ Performance ]**

**Flameproof :** Tablet Test No. E1160070

Proof of the carpet having passed the tablet test by Japan Fire Retardant Association.

**Antielectricity :** Human Charge Voltage less than 1kv  
(JIS L 1021-16 23°C 25%RH synthetic rubber sole)

Indicates the carpet has the antistatic processing in the pile itself, or made with a material that has antistatic performance in its fibre.

#### **Soil Resistant**

**Finishing :** This indicates the product has a feature not getting dirty easily dirty, and the dirt comes off easily upon maintenance.

Regular maintenance is the most effective way of keeping its fine sight.  
Caution for operation and maintenance.

## <Product Warning>

### **[ Caution upon Selection ]**

■ The antifouling mark is a standard showing the antifouling property of a product. The performance does not promise the product being dirt-free, hence a regular maintenance is most effective to retain the product beauty and quality. ■ The antistatic mark is a standard showing the antistatic state of a product. ■ Due to the walking environment or the environmental condition such as direct sunlight, discoloring or fading may occur. ■ Due to the designability priority, there are some designs for which the dirt may stand out. Avoid outdoor shoes, and using it in the indoor shoes area is recommended. ■ Cut pile products may appear color-spotted during the use because the pile direction becomes partial uneven, however this phenomena is a nature of the cut pile but not of a quality defect. ■ The method and the location of use is restricted by the Fire Defense Law. Confirm the laws and regulations prior to use. ■ Please be aware that the actual sample or the picture sample may be slightly different from the graphic. ■ Listed pictures contain composites. ■ Upon order placement, please confirm with the store or us. ■ The catalog is of November 2017 and subject to change without notice.

### **[ Precaution for Construction ]**

■ Perform construction by securing a flat and solid floor without humidity on the groundwork. Insufficient construction environment may cause a gap in the joint, push-up, or smell after construction. ■ Construct after confirming the direction of an arrow printed on the back side of the carpet tile. Constructing the carpet tile towards a wrong direction may result in an odd hue. ■ Perform construction by following the attached interior elevation by confirming the part number and quantity stated on the packing case. ■ During the construction, prohibit the trespassing of those other than related floor construction personnels in order to prevent defacement or accident caused by other subcontractors. ■ Start construction after leaving the carpet tile in a room temperature after a while and avoid a sudden environmental change during the construction. Difference between the room temperature and carpet tile temperature may cause a gap in the joint, push-up, etc. not only immediately after the construction but also as a latter event. ■ Keep the pile from being bitten in the joint as it may cause a gap in the joint or a difference in joint level. ■ After construction, the carpet tiles may come off when an excessive stress is given by conveying a cart or moving furniture over them. Protect the carpet tiles with a sheet of plywood upon conveying heavy load over them. ■ Upon cleaning to transfer, instruct the cleaning worker to not spilling bleach or rust removal. This may cause pile discoloring. ■ Upon disposing the

remaining materials after construction, entrust the disposal to an authorized industrial waste disposal operator. Upon incinerating packing cases, etc., dispose them following the prefectural ordinance. Burning the carpet tiles generates hazardous gas. ■ Use after thoroughly investigating the floor material as it may affect the floor material.

### **[ Precaution for Cargo Handling/Storage ]**

■ Unpack and store the carpet tile on a flat place without sliding them. Keep them from getting wet due to the overloading or rainwater. This may be the cause of the pile damage such as deformation, discoloring, or pollution, etc.

### **[ Precaution for Operation and Maintenance/ Use ]**

■ Mend the carpet tiles immediately in the case of removal, warp, tangled joint pile, etc. Leaving them without mending may affect the overall carpet tiles to damage their fine sight as well as incurring a falling accident. ■ In a spot exposed to the sun for longer hours may cause discoloring or fading. Use curtain, blind, etc. as a sunshade. ■ In the event of adhesion of dirt, wipe off with care immediately lest it should not spread over. It becomes harder to remove as time advances. Also, some of the contaminants may be non-removable. ■ Upon maintenance, use a detergent for carpet cleaning. Use of a chlorine agent may cause discoloring or fading of the pile. ■ The carpet may get dirty to cause discoloring or fading due to some kind of leg rubber of furniture, rubber product such as rubber mat, paint, preservative, insect repellent, etc. Make sure the carpet tile does not contact them directly. ■ Local loading due to a pair of high-heeled shoes or furniture may leave a dent on the carpet tiles. ■ Perform regular maintenance with an electric cleaner or a vacuum cleaner in order to keep its fine sight. In a place where earth and sand is expected to be brought in, place a mudguard mat, etc. at the entrance to keep the room from earth and sand. ■ Heat may cause discoloring/melting of carpet tile. Avoid frictional heat from tobacco or wheel, scattering spark, etc. ■ Upon removal of a dirt which has become a stain in part, use a stain remover or detergent in accordance with the cause of the dirt. Wrong selection may be cause of discoloring. ■ It comes with a material-unique smell. Be sure to ventilate. ■ Replacement is available in the case of product defect or malfunction upon purchase. Provided, however, we are not liable for such replacement in
